We affirm that:

We are certified public accountants licensed to practice in Michigan.

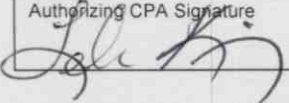

We further affirm the following material, "no" responses have been disclosed in the financial statements, including the notes, or in the Management Letter (report of comments and recommendations).

YES ☒ NO ☐ Check each applicable box below. (See instructions for further detail.)

1. ☒ ☐ All required component units/funds/agencies of the local unit are included in the financial statements and/or disclosed in the reporting entity notes to the financial statements as necessary.
2. ☒ ☐ There are no accumulated deficits in one or more of this unit's unreserved fund balances/unrestricted net assets (P.A. 275 of 1980) or the local unit has not exceeded its budget for expenditures.
3. ☒ ☐ The local unit is in compliance with the Uniform Chart of Accounts issued by the Department of Treasury.
4. ☒ ☐ The local unit has adopted a budget for all required funds.
5. ☒ ☐ A public hearing on the budget was held in accordance with State statute.
6. ☒ ☐ The local unit has not violated the Municipal Finance Act, an order issued under the Emergency Municipal Loan Act, or other guidance as issued by the Local Audit and Finance Division.
7. ☒ ☐ The local unit has not been delinquent in distributing tax revenues that were collected for another taxing unit.
8. ☒ ☐ The local unit only holds deposits/investments that comply with statutory requirements.
9. ☒ ☐ The local unit has no illegal or unauthorized expenditures that came to our attention as defined in the *Bulletin for Audits of Local Units of Government in Michigan*, as revised (see Appendix H of Bulletin).
10. ☒ ☐ There are no indications of defalcation, fraud or embezzlement, which came to our attention during the course of our audit that have not been previously communicated to the Local Audit and Finance Division (LAFD). If there is such activity that has not been communicated, please submit a separate report under separate cover.
11. ☒ ☐ The local unit is free of repeated comments from previous years.
12. ☒ ☐ The audit opinion is UNQUALIFIED.
13. ☒ ☐ The local unit has complied with GASB 34 or GASB 34 as modified by MCGAA Statement #7 and other generally accepted accounting principles (GAAP).
14. ☒ ☐ The board or council approves all invoices prior to payment as required by charter or statute.
15. ☒ ☐ To our knowledge, bank reconciliations that were reviewed were performed timely.

If a local unit of government (authorities and commissions included) is operating within the boundaries of the audited entity and is not included in this or any other audit report, nor do they obtain a stand-alone audit, please enclose the name(s), address(es), and a description(s) of the authority and/or commission.

I, the undersigned, certify that this statement is complete and accurate in all respects.

Independent Auditor's Report

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Marlette District Library, Michigan as of and for the year ended March 31, 2008, which collectively comprise the Library's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Marlette District Library, Michigan's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluation the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Marlette District Library, Michigan as of March 31, 2008 and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis, and the budgetary comparison schedules, as identified in the table of contents, are not a required part of the basic financial statements but are supplemental information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, I did not audit the information and express no opinion on it.

The Audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Marlette District Library, Michigan's basic financial statements. The accompanying other supplemental information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

As described in Note 1, the Library has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*, and related statements, as of April 1, 2004.

MANAGEMENT'S DISCUSSION AND ANALYSIS LETTER

Our discussion and analysis of the Marlette District Library's financial performance provides an overview of the Library's financial activities for the fiscal year ended March 31, 2008. Please read it in conjunction with the Library's financial statements.

Financial Highlights

The Library is in a good financial position with a General Fund Balance of \$934,275.

Using this Report

This annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No.34. GASB Statement 34 implements a new model of financial reporting for state and local governments designed to enhance the usefulness of the Library's annual report.

The Library as a Whole

The Marlette District Library's fund balance is as follows:

	March 31, 2008	March 31, 2007
General Fund	\$ 934,275	\$ 923,164
Total for Library	<u>\$ 934,275</u>	<u>\$ 923,164</u>

Marlette District Library

Marlette, Michigan

Governmental Activities

The Marlette District Library's Revenues and Expenditures can be summarized as follows:

	General Fund
Fund Balance - Beginning of Year	\$ 923,164
Revenue Collected	
Intergovernmental Revenue	33,139
Property Taxes	23,545
Charges for Services	3,129
Interest	44,241
Other	2,083
Total Revenue Collected	<u>106,137</u>
Expenditures	
General Government	111,830
Capital Outlay	-
Unrealized Loss (Gain)	(16,804)
Total Expenditures	<u>95,026</u>
Fund Balance - End of Year	<u><u>\$ 934,275</u></u>

Economic Factors and Next Year's Budget and Rates

The Library's budget for next year is approximately the same budget as a year ago.

Contacting the Library

This report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the Library's finances and to demonstrate the Library's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Library office at 3116 Main Street, Marlette, Michigan or by telephone at (989) 635-2838.

Marlette District Library

Notes To Financial Statements
For Year Ended March 31, 2008

The accounting methods and procedures adopted by the Marlette District Library, Sanilac County, Michigan, conform to generally accepted accounting principles as applied to governmental entities. The following notes to the financial statements are an integral part of the Library's Comprehensive Annual Financial Report.

1. Summary of Significant Accounting Policies

Financial Reporting Entity

The Marlette District Library was formed to serve the City of Marlette and other surrounding Townships. The Library operates under an elected Library Board for the purpose of providing Library services.

In accordance with the provisions of the Governmental Accounting Standards Board (GASB) in its Statement No. 14, the Marlette District Library is not considered to be part of any other governmental entity for financial reporting purposes. The criteria established by GASB for determining the various organizations to be included in the reporting entity's financial statements include oversight responsibility, scope of public services, fiscal independence, financial accountability, imposition of will and financial benefit or burden. On this basis, the financial statements of other governmental organizations are not included in the financial statements of the Marlette District Library.

Component Units - In accordance with generally accepted accounting principles, there are no component units of Government required to be included in the Financial Reporting Entity either as blended component units or discretely presented component units.

Government-wide and Fund Statements Fund

The Government-wide Financial Statements (i.e., the Statement of Net Assets (Deficit) and the Statement of Activities) report information on all the nonfiduciary activities of the Library (the primary government). The effect of interfund activity has been removed from these statements. Governmental activities, normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function (governmental activities) or identifiable activity (business-type activities) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or activity; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other revenue items properly excluded from program revenues are reported as general revenue.

Separate financial statements are provided for governmental funds, and fiduciary funds, even though the latter are excluded from the Government-wide Financial Statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

The Library reports the following major governmental funds:

General Fund - The General Fund is the Library's primary operating fund. It accounts for all financial resources of the general government.

Marlette District Library

Notes To Financial Statements
For Year Ended March 31, 2008

Measurement Focus and Basis of Accounting

The Government-wide Financial Statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become susceptible to accrual - that is, when they become both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period, generally collected within 60 days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes, intergovernmental revenues, special assessments, licenses, charges for services, and interest. All other revenue items are considered to be available only when cash is received by the Library. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, and claims and judgments are recorded only when payment is due.

Cash - The Library does not pool cash resources of its various funds to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balance in the cash accounts is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing securities and disclosed as part of the Library's investments.

Investments - Debt securities are valued at cost since it is generally the policy of the Library to hold such investments until they mature.

Other Assets - Other assets held are recorded and accounted for at cost.

Fund Equity - The unreserved fund balances for governmental funds represent the amount available for budgeting future operations. The reserved fund balances for governmental funds represent the amount that has been legally identified for specific purposes. Unreserved retained earnings for proprietary funds represent the net assets available for future operations or distribution. Reserved retained earnings for proprietary funds represent the net assets that have been legally identified for specific purposes.

Revenues and Expenditures/Expenses - Generally, Revenues for governmental funds, tax revenues, fees, and nontax revenues are recognized when earned. Grants from other governments are recorded when qualifying expenditures are incurred. Expenditures for governmental funds are recorded when incurred.

Vacation, Sick Leave, and Other Compensated Absences - The Library Director receives one week of paid vacation after one year of service. Librarian receives two weeks paid vacation. Both receive six paid holidays.

Capital Assets - Capital assets, which include buildings and equipment, are reported in the applicable governmental column in the Government-wide Financial Statements. Capital assets are defined by the Library as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Capital assets are depreciated using the straight-line method over the following useful lives:

Buildings & Building Improvements	20 to 50 years
Machinery & Equipment	3 to 20 years

Marlette District Library

Notes To Financial Statements
For Year Ended March 31, 2008

Long-Term Obligations - In the Government-wide Financial Statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Bond premiums and discounts, issuance costs, and the deferred amount on refunding are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount and deferred amount on refunding. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Accounting Changes

GASB Statement No. 34 – Effective April 1, 2004, the Library implemented the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* (GASB No. 34). Changes to the Library's financial statements as a result of GASB No. 34 are as follows:

- A management's discussion and analysis (MD&A) section providing analysis of the Library's overall financial position and results of operations has been included.
- Government-wide Financial Statements (statement of net assets (deficit) and statement of activities) prepared using full accrual accounting for all of the Library's activities have been provided.
- Capital assets in the governmental activities column of the statement of net assets (deficit) includes assets not previously accounted for by the Library as well as assets previously reported in the General Fixed Assets Account Group. In addition, the governmental activities column includes bonds and other long-term obligations previously reported in the General Long-term Debt Account Group.
- The fund financial statements focus on major funds rather than fund types.

Marlette District Library

Notes To Financial Statements
For Year Ended March 31, 2008

2. Stewardship, Compliance, and Accountability

Budgetary Information

The Library is legally subject to the budgetary control requirements of State of Michigan P.A. 621 of 1978 (the Uniform Budgeting Act). The following statements represent a brief synopsis of the major provisions of this Act:

1. Budgets must be adopted for the General Fund and Special Revenue Funds.
2. The budgets must be balanced. The balanced budget may include a contribution to or appropriation from fund balance.
3. The budgets must be amended when necessary.
4. Debt cannot be entered into unless permitted by law.
5. Expenditures cannot exceed budget appropriations.
6. Expenditures cannot be made unless authorized in the budget.
7. Public hearings must be held before budget adoptions.

In the body of the financial statements, the Library actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The budget is used by the Library as a management tool during the year for all budgetary funds. The budgets are adopted on a cash basis, which is not consistent with generally accepted accounting principles. Budgetary control is exercised at the departmental level. Budgets for the General Fund and the Special Revenue Funds are presented in the required supplemental information.

During the year ended March 31, 2008, the Library incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated, as follows:

	Total Appropriations	Amount of Expenditures	Budget Variance
<u>General Fund</u>			
Salaries & Wages	\$ 47,500	\$ 50,184	\$ 2,684
Payroll Taxes & Retirement	3,350	3,543	193
Library Association Dues	350	2,029	1,679
Supplies & Workshops	4,000	4,622	622
Repairs & Maintenance	12,600	14,344	1,744
Miscellaneous	3,450	4,069	619

Marlette District Library

Notes To Financial Statements
For Year Ended March 31, 2008

3. Cash and Investments

Michigan Compiled Laws, Section 129.91, authorizes the Local Unit to deposit and invest in the accounts of Federally insured banks, credit unions, and savings and loan associations; bonds, securities and other direct obligations of the United States, or any agency or instrumentality of the United States; United States government or Federal agency obligation repurchase agreements; bankers' acceptance of United States banks; commercial paper rated by two standard rating agencies within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan. Financial institutions eligible for deposit of public funds must maintain an office in Michigan.

The Library Board has designated two banks for the deposit of Library funds. There is not an investment policy adopted by the Board in accordance with Public Act 196 of 1997. The Board has authorized investment in bank accounts, bonds and CDs, but not the remainder of State statutory authority as listed above. The Library's deposits are in accordance with statutory authority. All cash deposits and investments of the Library are held by the Library in the Library's name.

At year end, the deposits and investments were reported in the basic financial statements in the following categories:

	Governmental Activities	Total Primary Government
Cash & Cash Equivalents	<u>\$ 935,305</u>	<u>\$ 935,305</u>

The breakdown between deposits and investments is as follows:

	Primary Government
Bank Deposits (Checking & Savings Accounts, CDs)	\$ 19,172
Investments	<u>916,133</u>
Total	<u>\$ 935,305</u>

The bank balance of the primary government's deposits is \$935,305, of which \$935,305 is covered by federal depository insurance and \$-0- is collateralized with U.S. Treasury securities held by the pledging financial institution's trust department in the Library's name.

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library does not have a deposit policy for custodial credit risk. At year end, the Library had approximately \$-0- of bank deposits (certificates of deposit, checking, and savings accounts) that were uninsured and uncollateralized. The Library believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Library evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Marlette District Library

Notes To Financial Statements
For Year Ended March 31, 2008

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Library's investment policy does not further limit its investment choices.

At year end, the deposits and investments were reported in the basic financial statements in the following categories:

<u>Investment</u>	<u>Fair Value</u>	<u>Rating</u>
UBS Cash	\$ 115	Unrated
UBS Investments (CD's)	916,133	Unrated

4. Capital Assets

Capital Assets activity of the Library's governmental activities (and business-type) was as follows:

	<u>Balance April 1, 2007</u>	<u>Additions</u>	<u>Disposals & Adjustments</u>	<u>Balance March 31, 2008</u>
Governmental Activities:				
Capital Assets not being Depreciated - Land	\$ 25,000	\$ -	\$ -	\$ 25,000
Capital Assets Being Depreciated:				
Buildings & Improvements	\$ 371,826	\$ -	\$ -	\$ 371,826
Office Equipment	5,193	-	-	5,193
Total Capital Assets being Depreciated	377,019	-	-	377,019
Accumulated Depreciation:				
Buildings & Improvements	77,267	8,254	-	85,521
Office Equipment	4,081	927	-	5,008
Total Accumulated Depreciation	81,348	9,181	-	90,529
Net Capital Assets Being Depreciated	<u>295,671</u>	<u>(9,181)</u>	<u>-</u>	<u>286,490</u>
Net Capital Assets	<u>\$ 320,671</u>	<u>\$ (9,181)</u>	<u>\$ -</u>	<u>\$ 311,490</u>

Depreciation expense was charged to programs of the primary government as follows:

Governmental Activities:	
General Government	<u>\$ 9,181</u>
Total Governmental Activities	<u>\$ 9,181</u>

Marlette District Library

Notes To Financial Statements
For Year Ended March 31, 2008

5. Deferred Compensation Plan

The Library provides pension benefits to all of its employees through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investments earnings. The plan is administered by American Express Financial Advisors, Inc. and funding is through a group flexible fund retirement contract (participating) with American Express Financial Advisors, Inc. Employees are 100% vested upon contribution, the Library contributes four percent of employees' gross earnings and employees can voluntarily contribute up to twenty percent of earnings. In accordance with these requirements, the Library contributed \$544.91 during the current year.

6. Post Employment Benefits

The Library does not provide any post employment benefits other than the pension benefits.

7. Risk Management

The Library is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries, as well as medical and workman's compensation benefits provided to employees. The Library has purchased commercial insurance for the various risks of loss stated above.

Settled claims for the commercial insurance have not exceeded the amount of coverage in any of the past three years. There was no reduction in coverage's obtained through commercial insurance during the past year.

July 1, 2008

Marlette District Library
Marlette, Michigan 48453

To the Members of the Board:

I have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Library for the year ended March 31, 2008, and have issued my report thereon dated July 1, 2008. Professional standards require that I provide you with the following information related to my audit.

My Responsibility under U.S. Generally Accepted Auditing Standards

As stated in my engagement letter dated May 11, 2007, my responsibility, as described by professional standards, is to express opinions about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. My audit of the financial statements does not relieve you or management of your responsibilities.

Planned Scope and Timing of the Audit

I performed the audit according to the planned scope and timing previously communicated to you.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. In accordance with the terms of my engagement letter, I will advise management about the appropriateness of accounting policies and their application. The significant accounting policies used by the Library are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ending March 31, 2008. I noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. There are no significant transactions that have been recognized in the financial statements in a different period than when the transaction occurred.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Difficulties Encountered in Performing the Audit

I encountered no significant difficulties in dealing with management in performing and completing my audit.

Audit Adjustments (Corrected and Uncorrected Misstatements)

Professional standards require me to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to my satisfaction, that could be significant to the financial statements or the auditor's report. I am pleased to report that no such disagreements arose during the course of my audit.

Management Representations

I have requested certain representations from management that are included in the management representation letter dated July 1, 2008.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, professional standards require the consulting accountant to check with me to determine that the consultant has all the relevant facts. To my knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

I generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the governmental unit's auditors. However, these discussions occurred in the normal course of my professional relationship and my responses were not a condition to my retention.

Communication of Significant Deficiencies and Material Weaknesses

In planning and performing my audit of the financial statements, as of and for the year ended March 31, 2008, in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, I considered the Library's internal control over financial reporting (internal control) as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the governmental unit's internal control. Accordingly, I do not express an opinion on the effectiveness of the governmental unit's internal control.

My consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, I identified certain deficiencies in internal control that I consider to be significant deficiencies and other deficiencies that I consider to be material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. I considered the following deficiencies to be significant deficiencies in internal control:

Preparation of Financial Statements - Management prepares internal financial information to assess operations and the financial position of the Library on an ongoing basis. Although the internal financial information is sufficient to operate the Library, it is not presented in accordance with generally accepted accounting principles. The Library contracts with me, the auditor, to draft the financial statements, including all necessary notes, in accordance with generally accepted accounting principles, since it does not retain staffing that currently have the expertise. I believe this meets the definition of a material weakness under *Statement on Auditing Standards 112*.

A material weakness is a significant deficiency, or a combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control. The AICPA Auditing Standards Board issued Statements on Audit Standards (SAS) 112 which establishes standards and provides guidance on communicating matters related to an entity's internal control over financial reporting and is effective for periods ending after December 15, 2006. According to SAS 112, it is considered to be a control deficiency if a client I am auditing has ineffective controls over the preparation of their financial statements such that client controls are absent or controls are not effective in preventing or detecting material misstatements in the preparation of the financial statements, including the related footnotes.

Accrual Adjustments – During the audit, I generally provide significant assistance in identifying and posting accrual adjustments to the accounting records. Accruals represent any adjustments other than cash that impact the accounting records. I bring this to your attention since it meets the above definition on a matter to be communicated.

Segregation of Duties - The relative size of the Library limits the extent to which the officials can segregate duties and responsibilities which impairs the basic premise that no one individual should have access to both the physical assets and the related accounting records (or all recording tasks of a transaction from inception to completion).

The Library has implemented mitigating controls to strengthen internal controls and the segregation of duties; however, it must be recognized that the risk of intentional or unintentional errors could be made and not detected in a timely manner.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Library's internal control.

My consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, I believe the significant deficiencies described above to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Library's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under ***Government Auditing Standards***.

This report is intended solely for the information and use of management, the Board of the Library, and Federal and State agencies and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Lehn King
